- Allow Trailing Comma In Function And Method Calls
- Only One Extra Comma Are Allowed
- You Can Not Use This In Function/Method Declarations

```
function func_call($num1, $num2, $num3, $num4) {  
    return $num1 + $num2 + $num3 + $num4;  
}
```

```
func_call(  
    $argument1,

//output:
//array(2) {
//  [0]=>
//  string(3) "dog"
//  [1]=>
//  &string(5) "monkey"
//}
```

HRTIME

- Hrtime Is A High-Resolution Monotonic Timer
- It Doesn't Depend On The System Clock

```
$start = hrtime(true);  
// ....  
$end = hrtime(true);  
  
$elapsed = $end - $start;
```
